EDUCATION

University of Minnesota, Minnesota Robotics Institute

September 2023 - December 2024

Master of Science, Robotics

Cumulative GPA of 3.78

University of Minnesota, College of Science and Engineering

September 2020 - June 2023

Bachelor of Mechanical Engineering, Mechanical Engineer

Cumulative GPA of 3.83, Dean's List, Graduated with Distinction

EXPERIENCE

PAR Systems

Field Service Engineer – Life Sciences

May 2024 – Present

- Tested, commissioned, installed, and maintained a variety of automation equipment with a wide array of features including robotic arms, computer vision, servos, and pneumatics
- Designed documents and executed machine tests to ensure products met rigorous reliability, safety, regulatory, and customer standards
- Constructed positive relationships with clients and ensured high levels of satisfaction
- Developed and delivered customized training programs for customers, empowering them to effectively operate and troubleshoot automation systems

University of Minnesota

Teaching Assistant – Robotics, University of Minnesota, Twin Cities

January 2024 – May 2024

- Created, revised, and graded examinations to accurately reflect students' knowledge of course material
- Conducted lectures to review previous exams and answered questions to promote student success
- Interacted with students to create a classroom environment that fit individual learning needs

ArchKey Solutions

Engineering Intern – ProKey Facilities

May 2022 – May 2024

- Managed procurement, and installation of mechanical equipment on large scale commercial buildings
- Designed pre-functional and functional commissioning tests based off controls documentation and schedules for various mechanical equipment
- Streamlined project management processes using Python and Microsoft VBA
- Supervised first year intern throughout summer program and provided feedback, and coaching

AutoCAD Specialist Intern – ArchKey Technologies

February 2021 – May 2024

- Facilitated change management through maintenance of AutoCAD blueprint database in conjunction with physical site changes
- Assisted the planning, logistics, and project management of various multi-million-dollar construction projects from beginning to end
- Identified equipment needs and procured necessary materials

ACTIVITIES

University of Minnesota

September 2023 – January 2024

Graduate Assistantship, Outreach

- Provided outreach for the Robotics Masters Program in underrepresented communities
- Mentored a FIRST robotics team to prepare for upcoming season

SKILLS

- Proficient in AutoCAD Electrical, SolidWorks, Creo, Python, C++, MATLAB, Mechanical Technical Skills, Factory Talk, Rockwell Automation, Microsoft Office
- Experience with Microsoft VB, Microsoft Visio, Bluebeam, TensorFlow, PyTorch, JavaScript
